## PROFESSIONAL SUMMARY

Results-driven Cloud and Web Developer with extensive experience building scalable applications and bridging the gap between local code and AWS infrastructure. Expertise includes hands-on implementation of serverless architectures and automated CI/CD pipelines alongside managing cloud resources through the AWS SDK. Proficient in Linux CLI operations, including secure SSH access and system permission management, to architect and deploy dynamic projects for international clients across the United States and Europe.

## TECHNICAL SKILLS

**Cloud & DevOps:** AWS (EC2, S3, Lambda, DynamoDB, CloudFront, Route 53, IAM), AWS SDK, CI/CD (GitHub Actions), Linux CLI, SSH, Permission Management, Docker

**Languages & Frameworks:** Python, JavaScript, C#, React.js, Node.js, HTML5, CSS3, REST APIs

**Game Development:** Unity 2D, C# Scripting, UI/UX Design, Level Design, Browser Game Integration (iFrame)

**Tools:** Git/GitHub, Vercel, Netlify, Image Optimization, AI-assisted Development Tools

## PROFESSIONAL EXPERIENCE

- Freelance Web Developer** June 2024 – Aug 2024  
*Celestial Church of Christ Miracle Parish* *Minnesota, USA (Remote)*
  - Architected and deployed a multi-page responsive website using React and Node.js, hosted via Vercel[cite: 54, 85].
  - Integrated dynamic content areas for events, prayer schedules, staff information, and multimedia galleries[cite: 54, 84].
  - Optimized images and page structure to maintain high performance and visual consistency across devices[cite: 55, 58].
  - Collaborated closely with US-based stakeholders to translate organizational needs into a professional digital presence[cite: 55, 57].
- Front-End Web Developer (Freelance)** March 2025 – March 2025  
*Game Project* *Pakistan (Remote)*
  - Developed a single-page Minecraft-themed website with integrated browser-playable gameplay via iFrame[cite: 44, 91].
  - Focused on responsive design and CSS animations to create an engaging, interactive user experience[cite: 46, 90].
  - Ensured cross-platform compatibility for smooth performance on both desktop and mobile browsers[cite: 46].

## KEY PROJECTS

- AWS-Hosted Portfolio with CI/CD** Personal Project
  - Deployed a personal portfolio on AWS S3 with CloudFront CDN integration and a custom domain via Route 53[cite: 87, 89].
  - Automated the deployment workflow using GitHub Actions, ensuring live updates trigger upon code pushes[cite: 18, 88].
  - Gained hands-on experience in managing cloud resources via the AWS CLI/SDK and configuring IAM policies[cite: 18, 73].

## EDUCATION & CERTIFICATIONS

- University of South Asia** Sept 2023 – Sept 2027  
*Bachelor of Science in Computer Science* *Lahore, Pakistan*
  - Relevant Coursework: Web Development, Cloud Computing, Data Structures, Algorithms[cite: 64, 93].

**Certifications:** Fundamental Cloud and DevOps Training (Exlearn Technologies, Dec 2025), AWS Certified Solutions Architect - Associate (In Progress) [cite: 9, 95]
